

How to Update the AP3 Software

Smartphone Requirement

- Software updates are not supported in iOS devices yet, so you need an Android smartphone to update AP3 padlocks.

1. Open Padlock

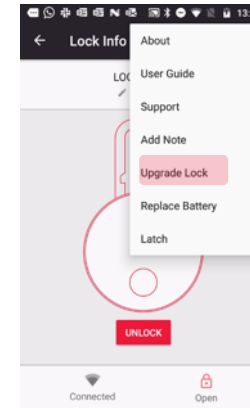

1.A. Make sure you have the Teleporte mobile app and with a valid key to open the lock you want to update.

1.B Open the padlock from the Teleporte mobile app

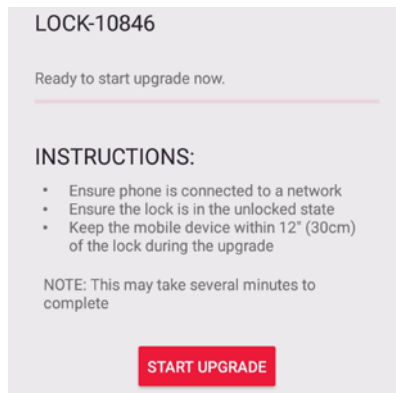

2. Select Option to Update Padlock

2.A. In the Teleporte application menu, in the upper right corner, select the Update Lock option.

3. Start update

3.A. Select START UPGRADE on the message that the application displays. This process may take a few minutes and you must wait for completion.

4. Verify Update

4.A. In some cases, you will have to press the padlock button to check if the light is red.
